Objective

Looking for a Flutter development internship to apply my skills in Dart, Flutter, and state management, while gaining real-world mobile app development experience.

Skills

- **Mobile Development** : Dart, Flutter, GetX, BloC, SQLite, Firebase
- **Web**: MERN Stack (MongoDB, Express, React, Node.js), Bootstrap
- **Databases**: MsSQL, MongoDB
- **Tools**: Git, GitHub
- **Core CS**: Data Structures, Algorithms

Education

B.Tech in Computer Science and Engineering
Darshan University, Rajkot

2023 – Present
CGPA: 8.7

Experience

Flutter Teaching Assistant
Darshan University, Rajkot

2025 – Present

- Teaching Flutter to over 120 students. Guidance for students on App development techniques and competitive programming. Regularly solving doubts of many students in Dart/Flutter.

Projects

Group Expense Management App
Description:

[[GitHub Link](#)]

Developed a Flutter-based Group Expense Manager app using GetX for state management, featuring real-time MongoDB synchronization, offline support, and an intuitive UI to add members, record transactions, split group expenses, and analyze balances.

Technologies: Dart, Flutter, SQLite, MongoDB, Node.js

Matrimony App
Description:

[[GitHub Link](#)]

Developed a Flutter-based Matrimony application with Firebase Authentication and SQLite for secure data handling. Designed an elegant and responsive UI that allows users to create and manage profiles, explore detailed match information, and add favorites for personalized matchmaking.

Technologies: Flutter, Firebase, SQLite, Dart

Achievements & Strengths

Achievements

- **LeetCode**: Solved 100+ problems
- **Third Place – Hackathon, 2025**: Secured 3rd place in a competitive programming hackathon among 3-member teams, demonstrating strong problem-solving skills and logical thinking and teamwork.

Strengths

- Teamwork and Collaboration
- Positive Attitude and Problem-Solving
